

AIL Presents...

UNDERSTANDING & ENJOYING THE UPCOMING TOTAL SOLAR ECLIPSE

with Bob Koester

Join us for a viewers' guide to the April 8, 2024, total solar eclipse.

In this 90 minute session, Bob will share information about the significance of this event, how solar eclipses happen, types of eclipses, and scientific interest in total solar eclipses.

Learn where experiencing totality is expected to occur, and the best ways to experience totality or near-totality, depending on your location.

Wednesday, February 28

10:00 AM

AIL Classroom, Lethbridge Lodge
