## FROM ADVENTURES IN LEARNING

As we ring in 2023, Adventures in Learning (AIL) is excited to celebrate its twenty-fifth year!

Did you know that AIL provides lifelong learning opportunities that allow community members to engage with both interesting subject matter and each other? These opportunities come in many different forms, including classes, lectures, Science Pub, Lunch and Learn, and a variety of events. No pre-requisites are required, and anyone is welcome to become a member.

Though AIL has grown since its founding, it remains true to its original vision. We are especially grateful to founding members Hilary Cleveland, Julien and Priscilla LeBourgeois, Charlie Carey,

Susie and Bob Gray, Mary and Allan Doyle, Peter and Jean McKee, and Dick and Deniza Martin, who had the foresight and determination to garner the support of Colby-Sawyer College (CSC) and bring this program to life in 1998. In honor of Hilary Cleveland's foresight and leadership in the establishment of AIL, we are excited to announce that she has been named honorary chair of the 25th Anniversary of AIL.

The upcoming year will be filled with special programming to celebrate AIL's rich history and bright future, including several course reprises, a Community Spotlight series, special lectures, field trips, gallery events, a new website and much more.

We look forward to strengthening ties with other organizations within the community, and most importantly, enjoying the chance to be together with old friends and make new ones. We'd love to have you join us! To contact us or to learn more, please visit our new website, [www.aillcsc.com](http://www.aillcsc.com), and please continue to check back regularly for updates on future opportunities with AIL.

Adventures in Learning is incredibly grateful to our dedicated volunteers, members and friends, and we look forward to a wonderful 2023, as we celebrate 25 years of lifelong learning and community enrichment in the Kearsarge-Lake Sunapee region!
