Ticketed Entry to **Fashioned by Sargent**

Organized with [Tate Britain](#), “Fashioned by Sargent” explores the artist’s complex relationship with his often-affluent clients and their clothes. The exhibition reveals Sargent’s power over his sitters’ images by considering the liberties he took with sartorial choices to express distinctive personalities, social positions, professions, gender identities, and nationalities. Alongside about 50 paintings by Sargent, over a dozen period garments and accessories shed new light on the relationship between fashion and this beloved artist’s creative practice.
